

Welcome to Motor Vehicle Level 2 Diploma in Vehicle Fitting Principles

About this course:

This Level 2 qualification provides further skills and insight into light vehicle maintenance and technology, to go alongside already gained knowledge of Light Vehicle Studies. By undertaking this course, you will be building upon your knowledge of motor vehicles with an understanding of the principles and workings of light vehicles and body repair.

Assessment:

You will be assessed on your practical ability and understanding through a range of tasks set by the awarding body including, workshop assessments, portfolios of evidence and end of unit tests.

Modules:

- Health & Safety and good housekeeping in the automotive environment
- Removing and replacing light vehicle body panels and components
- Removing and replacing light vehicle chassis units and components
- Inspecting light vehicles bodywork and components using prescribed methods

Next steps after this course:

After this course, you can continue onto Level 3 Motor Vehicle courses or go into an apprenticeship.

Our facilities:

Until you arrive at college, keep checking our website, social media and Applicant Hub for updates and even some activities to do before we meet you in September.
