

Welcome to Plumbing Level 1 City and Guild Diploma

About this course:

This course is suitable for a variety of learners and support the widening participation and inclusive learning agenda. This course is ideal for school leavers who want to become skilled in building services engineering. It will allow you to develop your knowledge and skills in college rather than in a working environment. You will learn by a series of practical exercises in a well-equipped workshop, backed up by relevant classroom theory. This includes an introduction to aspects of basic plumbing, heating, wiring, refrigeration and air conditioning.

Modules:

- Health and Safety
- Bending and Joining copper pipes
- Connecting piped and fittings, appliances

Next steps after this course:

After studying this course you can progress to our Level 2 Diploma in Plumbing or an apprenticeship. Alternatively, you could seek employment. As a plumber you would install, service and repair plumbing systems in homes and businesses. Depending on whether you work in domestic, industrial or commercial premises, your duties could include:

- Installing and repairing water supplies heating systems and drainage
- Servicing gas and oil-fired central heating systems, boilers and radiators
- Installing and fixing domestic appliances like showers and washing machines
- Servicing air-conditioning and ventilation units

Our facilities:

Until you arrive at college, keep checking our website, social media and Applicant Hub for updates and even some activities to do before we meet you in September.
