

Welcome to Electrical Level 3 City & Guilds Advanced Technical Diploma in Electrical Installations

About this course:

This course is for those wishing to further their skills and knowledge having already completed their level 2 Electrical Installation qualification or similar. You will become an independent learner with a range of theoretical knowledge and practical skills.

Modules:

- Planning and overseeing electrical work activities
- Principles of electrical science
- Electrical design and installation practices and procedures
- Principles of inspection, testing and commissioning electrical systems
- Inspecting, testing and commissioning electrical systems
- Electrical system fault diagnosis and rectification
- Requirements for electrical installations

Next steps after this course:

After this course, you will be qualified to Level 3 standards and able to seek employment as an installation electrician, maintenance electrician or set up your own business.

Until you arrive at college, keep checking our website, social media and Applicant Hub for updates and even some activities to do before we meet you in September.
