

Welcome to Plumbing Level 3 Advanced Technical Diploma

About this course:

If you want to continue in your studies in plumbing and progress onto working as a plumber in the building sector, then this course is for you. All practical aspects will be assessed by direct observation in practical sessions. Theory units will be assessed by online assessments.

Modules:

- Health and Safety
- Environmental Technology
- Complex Cold Water
- Domestic Hot Water
- Sanitation and Drainage
- Central Heating
- Domestic Gas Principles
- Design installation and planning
- Career Awareness in Building Services

Next steps after this course:

Students who complete this course can go onto seeking employment in the plumbing and building sector. Our staff will be able to direct you if you wish to become a fully qualified plumber or plumbing heating engineer.

Our facilities:

Until you arrive at college, keep checking our website, social media and Applicant Hub for updates and even some activities to do before we meet you in September.
