

# Craft Bricklayer

Level: 3

Duration: 21 months

**Craft Bricklayers carry out complex masonry work, creating decorative features and specialised structures while often supervising junior bricklayers.**

## Apprenticeship overview

### Core skills, knowledge and behaviours you will learn

- How to construct curved, battered, and decorative masonry
- How to interpret 3D digital building models
- How to lead a team and quality-check work
- Specialised restoration techniques for heritage sites
- Advanced mathematical calculations for masonry

### Where you might work

- Heritage and conservation sites
- High-end bespoke residential projects
- Major commercial construction sites

### Typical job roles

- Advanced Bricklayer
- Heritage Mason
- Bricklaying Team Leader

### Good to know

This is a “step up” for those with Level 2 experience

Involves significantly more technical planning than Level 2

Focus is on “craft” and architectural aesthetics
