

# Bricklayer Apprenticeship

Level 2

27 months

Bricklayers build walls using bricks, blocks, or modern pre-made elements. They prepare mortar, lay materials with a trowel, apply damp-proofing, and follow designs to complete projects accurately.

## Apprenticeship overview

Bricklayers work on a range of construction projects, from small repairs to large-scale developments like housing estates and hospitals. Employed by firms of all sizes, they may specialise in refurbishment, new builds or commercial work. Bricklayers use tools like spirit levels, plumb lines and chisels to construct accurate, high-quality walls, often working outdoors in all weather conditions. They collaborate with other trades and site managers, and on smaller jobs may interact with clients and surveyors. They are responsible for safety on site and must consider sustainability, minimising waste and using environmentally conscious materials throughout their work.

## Typical job roles

Bricklayer

## Why choose an apprenticeship for your business?

### The benefits, in brief:

- Retrain and upskill your current team
- Fill skill gaps and expand your workforce
- Diversify your team and bring in fresh ideas

### Why choose us?

- We are one of the biggest apprenticeship providers in the region
- We are funding experts and can help you get the maximum benefit of government funding available to you
- We will support you as an employer and your apprentice throughout the apprenticeship journey
