

# Craft Carpentry and Joinery Apprenticeship

Level 3

18 months

Working with wood-based materials to create and install complex, decorative building components safely and accurately, using appropriate tools and meeting specified quality standards.

## Apprenticeship overview

This occupation is found in new build and refurbishment sectors, essential to building homes, schools, hospitals, and infrastructure. Carpenters and joiners work with wood to create and install complex building components safely and to quality standards. There are two paths: Advanced Site Carpenters work on-site constructing bespoke structures, including complex roofs, while Advanced Architectural Joiners craft components in workshops, often repairing bespoke pieces. They collaborate with various construction professionals, lead teams, and use advanced tools and machinery. Skilled workers can progress to leadership roles like team leaders or contract managers, supporting the transition to modern, sustainable construction methods.

## Typical job roles

Advanced Architectural Joiner  
Advanced Site Carpenter

## Why choose an apprenticeship for your business?

### The benefits, in brief:

- Retrain and upskill your current team
- Fill skill gaps and expand your workforce
- Diversify your team and bring in fresh ideas
