

Groundworker Apprenticeship

Level 2

21 months

Groundworkers are the first on-site, preparing the area for construction by interpreting design plans and working with supervisors and engineers to enable structural building work to begin.

Apprenticeship overview

Groundworkers support all stages of construction, working alongside various trades from initial site preparation to final landscaping. They install drainage, concrete, build roads and paths, and complete hard landscaping. Their skills allow them to work across different types of sites including housing, commercial, civil engineering, and general building. Groundworkers are employed by a wide range of construction companies, from small subcontractors to large contractors.

Typical job roles

Groundworker

Why choose an apprenticeship for your business?

The benefits, in brief:

- Retrain and upskill your current team
- Fill skill gaps and expand your workforce
- Diversify your team and bring in fresh ideas

Why choose us?

- We are one of the biggest apprenticeship providers in the region
- We are funding experts and can help you get the maximum benefit of government funding available to you
